

Best Engineered, Award-Winning Spa Pad The "Ten Minute Patio"

EZ PAD

2008 & 2009

www.ez pads.com

With the EZ Pad there is no concrete to pour, no decks to build, no contractor bids, no weather delays, and best of all, **NO PERMITS**. The convenience and savings in time and money make the EZ Pad an innovative, budget-minded solution for all spa, hot tub and patio installations.

The EZ Pad provides a solid level foundation for any spa, hot tub, patio or outdoor equipment that requires a solid base. **EZ Pads are pre-fabricated modules each measuring 48" x 48" x 2" made of high-density, polyethylene plastic. They are chemical and mildew resistant, slip resistant and maintenance free.** Engineered and tested to withstand temperatures from -20°F to 140°F and crush tested to 5,000 lbs per sq. ft.
